Hanging System

Un sistema di complementi modulabili in grado di rispondere alle più diverse esigenze estetiche e funzionali. La struttura in tubolare metallico verniciata in finitura super-opaca si sposa con piani di appoggio realizzati in FENIX®, un materiale rivestito di nanoparticelle che conferiscono la caratteristica di rendere la superficie anti-impronta, morbida al tatto, opaca ed estremamente resistente.

A modular complements system able to satisfy the most diversified aesthetical and functional needs. The lacquered super-mat tubular metallic structure is perfectly matching to its FENIX® support surfaces: a material covered with nanoparticles featuring it as fingerprint free, soft touch, matt and extremely resistant.

BASILEA

Hanging System

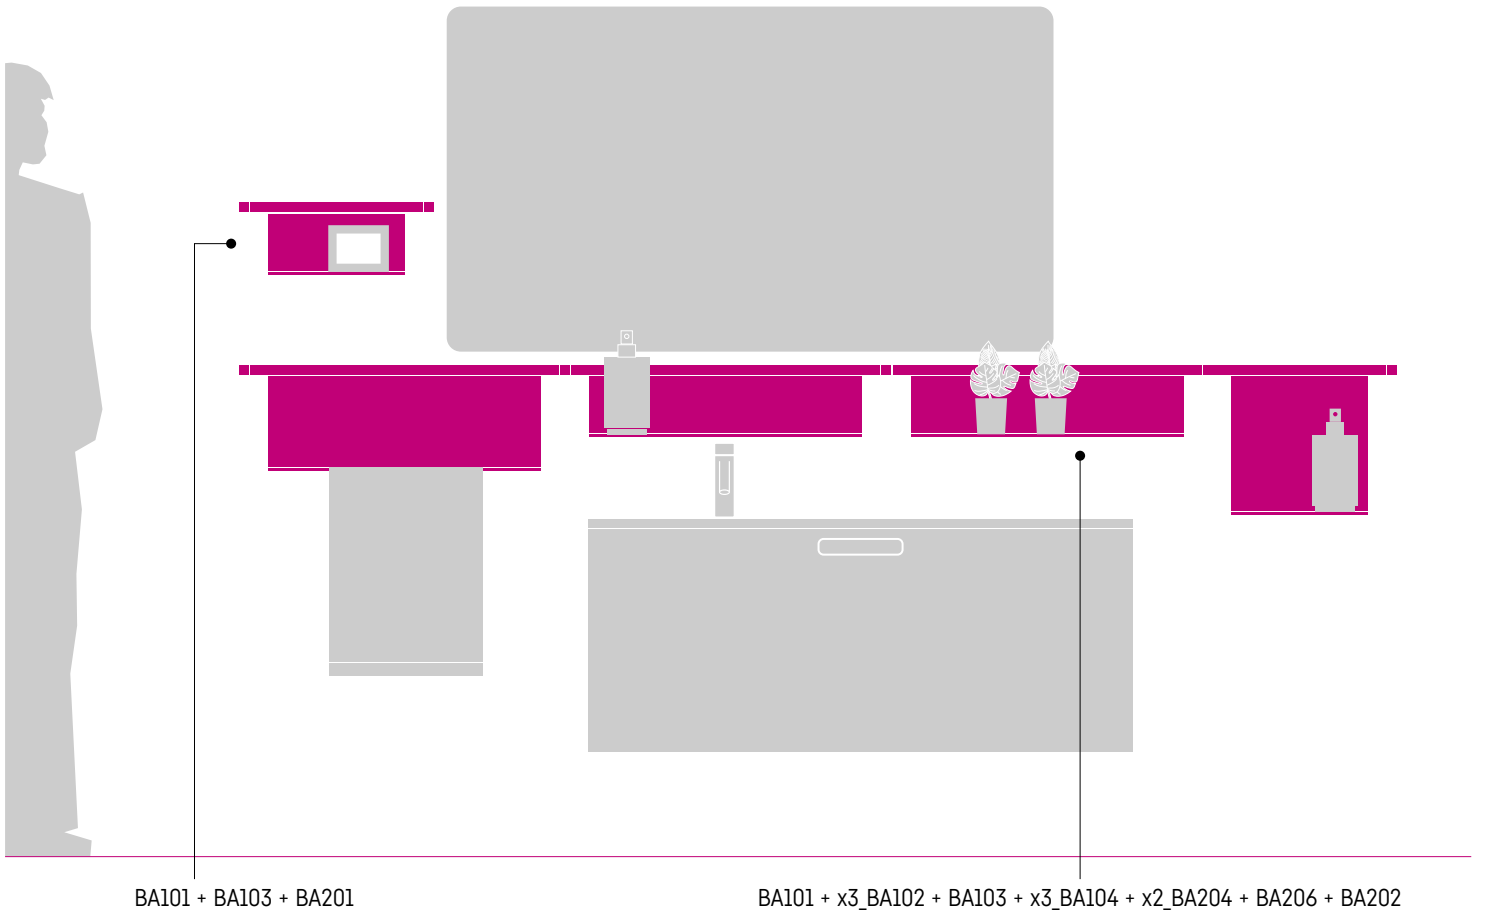

Un sistema che unisce la praticità di installazione con la flessibilità di organizzazione. I moduli mensola si fissano alla barra senza l'ausilio di viti o attrezzi. Ciò rende BASILEA un elemento di arredo funzionale in grado di rispondere a tutte le esigenze espositive che la casa contemporanea richiede.

A system matching easy installation to organization flexibility. The modular shelves are fixed to the bar without using screws or instruments. This is making BASILEA a functional furnishing element, able to respond to all contemporary home's displaying needs.
